

Five Oaks Academy
A Montessori School

Welcome to Five Oaks Academy, Inc. We appreciate your inquiry into our school and we invite you to explore the unparalleled program we offer our community.

At Five Oaks Academy, Inc. learning is a hands-on experience. Students learn by inquiry and discovery. We encourage research and critical thinking skills.

Five Oaks Academy, Inc. prepares our students to succeed in the real world of ideas, enterprise, and challenging perspectives. We lead our students to discover and to develop their unique talents and possibilities. We rigorously prepare our students for the 21st century by

- Empowering children to discover the interdisciplinary nature of history, science, geography, math, literature, writing, and culture
- Inspiring students to think for themselves and to make decisions
- Teaching them how to formulate questions and do their own research
- Helping them develop their skills of time management and prioritizing responsibilities
- Introducing them to diverse and unique perspectives
- Instilling respect for different points of view through world studies and conflict management and resolution

In addition to our beautiful 10 acre campus, we are unique in offering a maximum student teacher ratio of 12:1. Our classroom models are based on 2 and 3 certified teachers instead of the traditional 1 teacher: 1 assistant model. With the completion of each 3 year cycle (3-6, 6-9, 9-12) our students master a comprehensive integrated curriculum. Our Montessori curriculum is enriched and challenging. Our students explore the realm of mathematics, literature, the sciences, history, geography, and the arts.

Welcome to Five Oaks Academy, Inc. where students cultivate a lifelong joy of learning. Choosing a school that will challenge and nurture your children is important to their future successes. Education that stimulates the students to reach their unique potential is priceless. We invite you to join our educational journey. At Five Oaks Academy, Inc. we provide an environment that leads students to create questions, ideas, and challenges that will place them in situations where they can make their own life changing discoveries.

Peace,

Kathleen Trewhella-Grant, Executive Director

“The way you see people is the way you treat them and the way you treat them is what they become.”

- Goethe
